#### **A Message From the St. Francis Fund Chairs**

Dear Parents,

When we were asked to chair the 2017–18 St. Francis Fund, we could never have imagined the devastation that Hurricane Harvey would bring to our city. When the storm hit right before we were planning to send out St. Francis Fund letters, we knew we had to take a step back, let our community breathe a collective sigh, and watch with pride as we came together in ways that honored our neighbors in need.

Now, we are asking our St. Francis family to help again. We have been inspired and encouraged by the amount of support the school has received from our parent community this year. We would like to extend a profound thank-you to each and every parent who has helped raise over \$720,000 for this year's St. Francis Fund. We are over 90 percent of the way to our \$800,000 goal—with just 41 percent parent participation. We hope that every family will choose to support the St. Francis Fund with a gift from the heart. If you would like to **join us in providing critical operating funds that support every student every day**, please [click here](#).

With sincere gratitude,

Maureen and Paul Perea

### **From the Division Head**

Just a few weeks ago, Punxsutawney Phil saw his shadow on Groundhog Day, which lore tells us means six more weeks of winter. Now, most of us would prefer not to have another month and a half of weather like this year's winter brought us—and thankfully, in our part of the country, we probably won't. Now that we are approaching March, spring weather is possible just about any time.

For many in the Christian faith, this time of year is special for another reason beyond just the promise of improving weather: Ash Wednesday ushers in Lent, the beginning of a new season in the church and a time for us to begin working on new things.

According to EpiscopalChurch.org, *“Early Christians observed ‘a season of penitence and fasting’ in preparation for the Paschal feast. The season now known as Lent is from an Old English word meaning “spring,” the time of lengthening days.”*

Many of us try to work on ourselves during Lent by “giving up.” We forgo things we really like—perhaps things we have been overindulging in such as sugar, fast food, soft drinks, excessive screen time or social media, or even splurges that have grown into expensive daily trips to the gourmet coffee shop drive-through window.

Instead of “giving up,” some people choose to “give more.” This is often helpful for children—giving more of themselves, doing more to help at home, being more patient with younger siblings, and being more thankful.

Now that Valentine's Day cards and candy are on the sale rack, it's tempting to want to skip ahead to Easter and forego Lent. Nevertheless, this is a time to work on ourselves—a sort of “spring cleaning” of the soul. As Father Wismer

reminded the children on Tuesday, “during Lent, we don’t say ‘alleluia.’ We are saving that for Easter.” It will be worth waiting for.

Whether you are “giving up,” “giving more,” or both, I hope this season of Lent will be a peaceful time for you. Please know that you are always welcome to join us for chapel as we learn more about being people for others.

All the best,

Amy Whitley, MA  
Head of Primary School

## **Lower School**

### **From the Division Head**

I hope everyone is having a restful weekend!

This week, I wanted to highlight an addition to our Lower School program. As some of you might already be aware, we have a Teaching Fellow this year.

Our vision for this new position was to bring in an eager educator—a certified teacher with experience—who might need training in our curricular approaches or just need a bit more experience in general before being placed in the classroom.

Christine Nguyen joined us in August and has already made a tremendous impact on our Lower School program. She has four years of experience teaching children from 4–11 years old, and she will be earning her master's degree from the University of St. Thomas in May.

Working with our youngest learners in Lower School is her primary job, pulling small groups for guided reading and math instruction. She is also co-teaching with third and fourth grades in their afternoon tutorial program, and she was a valued member of our kindergarten admissions testing committee.

From time to time, she serves as a substitute in each grade level, helping her gain more experience with all levels of learners. Maybe your children have come home and reported that she was their substitute. Rest assured, they are in excellent hands!

Her desk is in the Literacy Office, and she can often be found in the kindergarten pod. Please reach out to say hello if you can!

Have a fantastic week!

Cheers,

Carol Christ, MEd  
Head of Lower School

## Middle School

### **From the Division Head**

Happy Sunday, Middle School Families. I hope this finds you all well today.

**This Tuesday, February 20, is the SFES STEAMFaire**, which showcases our school's Science, Technology, Engineering, Arts, and Math departments' great work with our students.

Whether we're using Tinkercad to 3-D print Mars farming stations, using recyclable materials to construct functioning water filters, building mini-staircases to learn and display slope, programming Ozobots to perform simple tasks, writing HTML code, or using Arduino to create interactive electronic objects, our teachers and students collaborate daily to bring first-class STEAM education to St. Francis.

Kudos to our students and faculty for pushing our school forward into the ever-developing landscape of modern, 21st-century education.

It's a beautiful day, and we are Wolves!

Connor Cook, EdD  
Head of Middle School
