The annual children's coat drive, which is sponsored by members of our Middle School's National Junior Honor Society (NJHS) and our Upper School's National Honor Society (NHS), supports MAM by collecting new and used coats so they are available to those in need before the cold temperatures hit. Donations will be accepted on both campuses.

### PINEY POINT CAMPUS

- Lower School students should take their coat donation to their classroom.
- Middle School students should take their coat donation to their advisory.
- Donations may also be left with the St. Francis Episcopal Church Office.

### COUPER CAMPUS

- Donation boxes for Primary School will be at the cottages in front of the carpool line.
- Donation boxes for Upper School will be in the Crum Athletics Center.

#### **Announcing Our New Director of Library Services**

We are pleased to announce that Alison Salinas has stepped into the role of Director of Library Services. Mrs. Salinas has served St. Francis Episcopal School as a curriculum and instruction specialist since 2016. She will continue teaching two sections of Advanced Fifth Grade English throughout this school year and will begin work to earn library certification in the spring semester. Mrs. Salinas earned a BA degree from Georgetown University in linguistics and Spanish, an MA degree from Georgetown in applied linguistics, and an EdS in reading and curriculum from the University of Virginia.

We would like to thank Dana Kenningham, who stepped in at the beginning of school to serve as Acting Director of Library Services. Mrs. Kenningham has done an excellent job, and we are grateful for her service to SFES, and also grateful that she will continue in the transition to serve in the Crum Library and assist Mrs. Salinas. This is good news for the Crum Library and for St. Francis Episcopal School.

Join us on Thursday, October 27, at 11:30 a.m. to explore ways parents and caregivers can navigate difficult conversations with children and teens. Guest speaker [Marisa Nowitz](#) will offer a brief overview of how to recognize signs of distress in children who have been exposed to trauma and/or loss. In addition, we will explore the “cost of caring” and strategies to promote resilience in parents and caregivers who are helping to support children.

Light lunch will be served. RSVP by clicking on [this link](#) or on the image below.

## **Primary School**

### **From the Head of Curriculum and Instruction**

I hope you are enjoying this fall weekend!

**"Commit yourself to lifelong learning. The most valuable asset you'll ever have is your mind and what you put into it." —Albert Einstein**

All dedicated educators would tell you that their inspiration as a teacher is to create passionate, lifelong learners. This is one of the most important lessons we can model for and teach to our students. We should all strive to improve our craft and stay current with new learning and research if we are to serve our constituents to the best of our ability.

With that said, I wanted to share how the St. Francis faculty is doing just that!

**Our Primary School faculty continue to learn more about the Reggio Emilia approach to teaching and learning**, which is the foundation for our Primary program. Two teachers are going to Vancouver, Canada, for the North American Reggio Emilia Alliance's fall conference to enhance their understanding of this child-centered approach, and trainers from this organization will be on campus on January 2 to conduct workshops with the Primary faculty. In April, a team of six faculty and administrators will also be traveling to Reggio Emilia, Italy, to attend a weeklong, in-depth group study. This training is what enables our faculty to continue to provide a program that truly sets our Primary School apart from other programs in the country.

**Our Lower School teachers are continuing their study in current, research-informed instructional practices via a yearlong book study on *The Power of Making Thinking Visible***. They are learning more about implementing instructional practices that help students share their thinking and about reflecting on successes and challenges related to implementing these practices in their classrooms. Ashley Stephenson, one of our Curriculum and Instruction Specialists, is leading the work in this area. She is also continuing her work in helping to support the transition from Primary to Lower School, ensuring our young friends have a smooth transition from one division to another.

**Several Middle School faculty have attended or will be attending workshops and conferences in person and virtually**. These are amazing opportunities for content teachers to learn from the experts and to collaborate with others:

- Teachers' College, Columbia University
  - "Book Clubs in Middle School: Honing Kids' Skills With Critical Reading and Literary Conversations"
  - "Supporting Students With Dyslexia in Reading Workshop and Across the School Day"
- Science Teachers Association of Texas
  - Conference for the Advancement of Science Teaching
- National Council for the Social Studies
  - Annual Conference
- American Council on the Teaching of Foreign Languages
  - Annual Conference
- International Society for Technology in Education
  - Creative Constructor Workshop

**As our Upper School expands the AP program, our teachers have continued to learn more about these courses by attending several trainings this past summer and this fall.** One of the English teachers will be attending the National Council of Teachers of English Annual Convention in late November in Anaheim, CA. Conversations centered around Middle and Upper School division alignment are a continued area of focus as we strive to make the transition between divisions seamless.

**Our four music faculty members will be joining thousands of music educators from all over the state at the annual Texas Music Educators Association convention** in San Antonio.

**A group of administrators and teachers will be attending the Texas Association for the Gifted and Talented conference** here in Houston in early December to continue our work in meeting the needs of our advanced learners.

Professional development opportunities are not only to fill our “professional buckets,” but also to help us grow in our commitment to service and to others. An important aspect of our professional growth at St. Francis centers around our school motto of becoming “people for others” by learning how to make this a more welcoming school community for all students and their families. For many years, the National Association of Independent Schools has sponsored annual conferences to help independent schools in this work. The **People of Color Conference** is for independent school faculty and staff, and the **Student Diversity Leadership Conference** is for upper school-level student leaders (grades 9–12) from across the US and abroad. **This will be our third year to send a group of students, faculty, and staff to these two conferences**, held this year in San Antonio.

As you can see, we are practicing what we preach.

I hope you have a great week, and thank you for entrusting us with the hearts and minds of your children.

Carol Christ, MEd

### **Primary School Hearing and Vision Screenings Are Wednesday**

St. Francis will be offering hearing and vision screenings for **students who turned four years old by September 1, 2022**. Screenings will be provided by Pine Woods Screening Services this **Wednesday, October 19**.

Here's what else you need to know:

- State-certified screeners will conduct the screenings during school hours.
- A copy of the results will be provided for school files. Students who have not passed a screening will receive a referral form for follow-up with a physician or specialist.
- Students who wear glasses should bring them to school.
- We do not refer to the screening as a “test.” Please help us by doing the same. The teachers will explain the process to our students, and they will discover that they are playing two games with the screeners.
- Screenings are nondiagnostic and are not intended to be an equal alternative to an in-depth exam by a licensed physician or specialist.
- If you have any questions, please contact School Nurse Debbie King, RN, via [email](#) or at 713.458.6167.

## Upper School

### From the Head of Curriculum and Instruction

I hope you are enjoying this fall weekend!

**"Commit yourself to lifelong learning. The most valuable asset you'll ever have is your mind and what you put into it." —Albert Einstein**

All dedicated educators would tell you that their inspiration as a teacher is to create passionate, lifelong learners. This is one of the most important lessons we can model for and teach to our students. We should all strive to improve our craft and stay current with new learning and research if we are to serve our constituents to the best of our ability.

With that said, I wanted to share how the St. Francis faculty is doing just that!

**Our Primary School faculty continue to learn more about the Reggio Emilia approach to teaching and learning**, which is the foundation for our Primary program. Two teachers are going to Vancouver, Canada, for the North American Reggio Emilia Alliance's fall conference to enhance their understanding of this child-centered approach, and trainers from this organization will be on campus on January 2 to conduct workshops with the Primary faculty. In April, a team of six faculty and administrators will also be traveling to Reggio Emilia, Italy, to attend a weeklong, in-depth group study. This training is what enables our faculty to continue to provide a program that truly sets our Primary School apart from other programs in the country.

**Our Lower School teachers are continuing their study in current, research-informed instructional practices via a yearlong book study on *The Power of Making Thinking Visible***. They are learning more about implementing instructional practices that help students share their thinking and about reflecting on successes and challenges related to implementing these practices in their classrooms. Ashley Stephenson, one of our Curriculum and Instruction Specialists, is leading the work in this area. She is also continuing her work in helping to support the transition from Primary to Lower School, ensuring our young friends have a smooth transition from one division to another.

**Several Middle School faculty have attended or will be attending workshops and conferences in person and virtually.** These are amazing opportunities for content teachers to learn from the experts and to collaborate with others:

- Teachers' College, Columbia University
  - "Book Clubs in Middle School: Honing Kids' Skills With Critical Reading and Literary Conversations"
  - "Supporting Students With Dyslexia in Reading Workshop and Across the School Day"
- Science Teachers Association of Texas
  - Conference for the Advancement of Science Teaching
- National Council for the Social Studies
  - Annual Conference
- American Council on the Teaching of Foreign Languages
  - Annual Conference
- International Society for Technology in Education
  - Creative Constructor Workshop

**As our Upper School expands the AP program, our teachers have continued to learn more about these courses by attending several trainings this past summer and this fall.** One of the English teachers will be attending the National Council of Teachers of English Annual Convention in late November in Anaheim, CA. Conversations centered around Middle and Upper School division alignment are a continued area of focus as we strive to make the transition between divisions seamless.

**Our four music faculty members will be joining thousands of music educators from all over the state at the annual Texas Music Educators Association convention** in San Antonio.

**A group of administrators and teachers will be attending the Texas Association for the Gifted and Talented conference** here in Houston in early December to continue our work in meeting the needs of our advanced learners.

Professional development opportunities are not only to fill our "professional buckets," but also to help us grow in our commitment to service and to others. An important aspect of our professional growth at St. Francis centers around our school motto of becoming "people for others" by learning how to make this a more welcoming school community for all students and their families. For many years, the National Association of Independent Schools has sponsored annual conferences to help independent schools in this work. The **People of Color Conference** is for independent school faculty and staff, and the **Student Diversity Leadership Conference** is for upper school-level student leaders (grades 9–12) from across the US and abroad. **This will be our third year to send a group of students, faculty, and staff to these two conferences,** held this year in San Antonio.

As you can see, we are practicing what we preach.

I hope you have a great week, and thank you for entrusting us with the hearts and minds of your children.

**"An intelligent heart acquires knowledge, and the ear of the wise seeks knowledge." —Proverbs 18:15**

Fondly,

Carol Christ, MEd  
Head of Curriculum and Instruction

### **This Week: Donate Coats to Kitty's Coat Drive**

Several years ago, teachers in Spring Branch ISD noticed that many children were not wearing coats during a year of cold winter weather. As a result, MAM was asked to help collect coats and distribute them to children in need. St. Francis Episcopal Church and School answered the call. In honor of Kitty Elliott—who organized the original coat drive—it has been officially named The Kitty Elliott Coat Drive. Collection areas will be set up at St. Francis Episcopal Church today and next Sunday, October 23. Please bring coat donations today or next Sunday, or to the church office this week.

### **Join Us Tuesdays for Mom's Bible Study**

This fall, the **SFES Moms' Bible Study** meets weekly at 8:30 a.m. on Tuesdays in CE212.

- The study is on the book **"Never Alone: Parenting in the Power of the Holy Spirit"** by Jeannie Cunnion.
- In this seven-session study, **discover how the Holy Spirit's presence and power transform how you lead and love your kids**. You'll be invited to wrestle through the question, "Do I really know how to parent in the power of the Holy Spirit, or have I settled for parenting in my power?" Good news, Mom! The Holy Spirit is championing you in the holy work of motherhood. Where you can't, He can! He is faithfully at work. You are never alone in your pursuit to point your kids to the love of Jesus.
- For more information or to RSVP, please contact **Allison Devlin** via [email](#) or at 713.882.0725.
